

Priyadarshan Patil, Ph.D.

priyadarshan@utexas.edu ◇ +1 (512) 228 1100 ◇ LinkedIn ◇ Google Scholar

Employment

| | |
|---|-------------------|
| Electrotempo Inc. - Operations Research Scientist and Team Lead | Apr '23 - Current |
| Amazon Inc. - Applied Scientist, Worldwide Operations (Supply Chain) | Aug '22 - Mar' 23 |

Education

| | |
|--|------------|
| Ph.D. - Operations Research, The University of Texas at Austin | Summer '22 |
| Graduate Certificate - Engineering Education, The University of Texas at Austin | Fall '20 |
| M.S.E. - Civil Engineering (Transportation), The University of Texas at Austin | Fall '16 |
| B.Tech. - Civil Engineering, Indian Institute of Technology Madras | Summer '15 |

Journal publications

Awards

8. **Best student paper Award, 2022** - Awarded by Texas chapter of ITE International for best student transportation paper in Texas
7. **Professional Development Award, 2021** - Awarded by the Graduate School at UT Austin for presentations at the 2022 TRB annual meeting
6. **Professional Development Award, 2020** - Awarded by the Graduate School at UT Austin for presentations at the 2020 INFORMS annual meeting and 2021 TRB annual meeting
5. **Winner, fORged by Machines competition, 2019** - Awarded by INFORMS computing society cluster and AWS for the best demand prediction/inventory control model
4. **Professional Development Award, 2019** - Awarded by the Graduate School at UT Austin for presentations at the 2019 INFORMS annual meeting
3. **Scholarship for Graduate Study in ITS, 2018** - Awarded by Intelligent Transportation Society Texas chapter for academic achievements
2. **Professional Development Award, 2018** - Awarded by the Graduate School at UT Austin for presentations at the 2018 INFORMS annual meeting
1. **Ryuichi Kitamura paper award, 2017** - Best Paper award for a professor- student pair awarded by Travel analysis methods section (ADB00) of the Transportation Research Board

Research Service

Professional appointment: Member and Communications Coordinator, Standing Committee on Railroad Operating Technologies, Transportation Research Board

Section Editor (Guest): Modern Transportation

Grant Referee:

- National Science Foundation
- National Academy of Sciences Airport Cooperate Research Program grant - \$400,000
- National Academy of Sciences National Cooperative Highway Research Program - \$350,000
- Amazon Research Awards - \$80,000

Paper Referee:

- Transportation Research Part B
- Transportation Research Part C
- Transportation Research Part E
- Transportmetrica A: Transport Science
- Transportation Letters
- Networks and Spatial Economics
- Transportation Research Record
- Transportation Research Interdisciplinary Perspectives
- Transportation Research Board annual meeting
- Energies
- Future Transportation
- Sustainability
- Applied Sciences
- Cogent Social Sciences
- Frontiers in Education conference
- American Society for Engineering Education annual conference

Past Leadership and Misc. Service

- EER Mentored Proposal Reviewer Program fellow, Journal of Engineering Education.
- Shuttle Bus Committee, UT Austin.
- East Campus Graduate Housing Project committee, UT Austin.
- Secretary, ITE/ITS student chapter, UT Austin (*Best TX student chapter award, 2019*)

Teaching Experience

Graduate Teaching Assistant: Probability and Statistics (Spring 2019, Spring 2020), Civil engineering systems (Fall 2018), Transportation systems (Fall 2016)

- **Probability and Statistics:** Assisted course design, evaluation design, and handled grading, in addition to weekly lab sessions and office hours (Overall Rating: 4.33/5)
- **Civil Engineering Systems:** Created new modules on data analysis and linear regression, in addition to conducting regular lab sessions, office hours, and grading (Overall Rating: 4.46/5)
- **Transportation Systems:** Conducted regular discussion sessions, office hours, and grading

Certification in Engineering Education, The University of Texas at Austin (Completed, Fall 2020)

- Courses completed: Knowing/learning in STEM education, Supervised teaching in engg., Assessment/curriculum design in engg., Teaching practicum, Argumentation in engineering education
- Designed an introductory course on network analysis including design of learning objectives, syllabus, assessment plan, lesson plan, and one weeks worth of learning activities
- Taught an interactive 1.5-hour guest lecture session on probability applications to a class of 60 students
- My research (as a part of the certification) resulted in a peer-reviewed publication (See pub. no. 5)

Mentoring Experience

Graduates Linked with Undergraduates in Engineering (GLUE) mentor (Fall '18 - Spring '19)

- Mentored two undergraduate sophomores (Ms. Katherine Ross, Ms. Bradley Gladdens) on transportation and hurricane evacuation research
- Ms. Ross aided in experimental work on a publication and Ms. Gladdens helped with a literature review used for proposal writing

MiTR mentor, IIT Madras (Fall '14 - Spring '15)

- Mentored 8 freshmen undergraduate students and supported their academic journey on campus.

Relevant Technical Skills

Languages: Python, MATLAB, R, AMPL, SQL

Tools/Packages: SPSS, Stata, TransCAD, OpenCV, Vissim, ArcGIS

Python libraries: Pandas, Numpy, Scipy, visualization libraries (matplotlib, seaborn, plotly), Optimizers (Xpress, CPLEX, Gurobi), SimPy, ML/DS libraries (sklearn, tensorflow pytorch, keras, xgboost, etc.)

Certifications: AWS cloud practitioner (CLF-001, June 2023)

Coursework Highlights

UT Austin (PhD) - Data Science Lab, Public Transportation Engineering, Network Optimization, Linear Programming, Integer Programming, Applied Engg. Data Analysis/Visualization/Optimization, Applied Stochastic Processes, Markov Decision Processes, Queueing Theory, Production/Inventory Control, Decision Analysis

UT Austin (MS) - Transportation Network Analysis, Transportation Systems Management, Logistic Regression/Discrete Choice, Dynamic Traffic Assignment, TransCAD GIS, Logistics Analytics

IIT Madras - Transportation Network Analysis, Computer Applications in Traffic & Highway Engineering, Probability-Statistics and Stochastic Processes, Calculus I & II

Thesis

Doctoral : Traffic assignment models – applicability and efficacy

Advisor: Dr. Stephen D. Boyles, UT Austin

Masters : Simulation Evaluation of Emerging Estimation Techniques for Multinomial Probit Models

Advisor: Dr. Chandra Bhat, UT Austin

Bachelors : Network Algorithms for Sustainability Objective

Advisor: Dr. Karthik K Srinivasan, IIT Madras

Selected Projects

1. Simulation of liver transplant systems for multiple liver quality thresholds
 - Designed and simulated liver transplant systems for heterogeneous patient groups under various liver allocation policies.
2. Intersection redesign study as Consultant for the city of West Lake Hills
 - Conducted a traffic count study and traveler satisfaction survey for multiple traffic control interventions at the intersection under study
 - Presented results of the study to the city council and members of the public; providing recommendations for changing intersection configuration
3. Modeling inequity through dynamic traffic assignment (DTA)
 - Designed a parking search problem with departure time choice to model inequity
 - Derived analytical solutions for the parking search problem with PQ model integration
4. Planning for environmental effect of pollutants by Visualization in TransCAD
 - Performed 4-step planning process, linked trip distribution to emission density and prepared visualizations to pinpoint areas of maximum impact for easy remedial measures

Miscellaneous

- National Intercollegiate Racquetball Player, UT Austin.
- 99.99 %ile in CAT 2014 (conducted by IIMs), ranked among top 25 among over 1,70,000 candidates.
- KVPY fellowship granted by the Dept. of Science and Technology, Govt. of India.
